Chautauqua-in-Chagrin™ program addresses cybersecurity on July 10

CHAGRIN FALLS, OHIO –Chagrin Arts’ 2018 *Chautauqua-in-Chagrin™* Lecture Series will continue on July 10 with a focus on cybersecurity. The program will take place from 6:30 – 8:00 PM at the Chagrin Falls United Methodist Church, located at 20 S. Franklin, St., Chagrin Falls, Ohio. Tickets are \$20-\$25 for adults and \$5 for students age 25 and younger. Tickets may be purchased by phone at (440) 247-9700 or online at ChagrinArts.org

The focus of this year’s *Chautauqua-in-Chagrin™* Series is “Let’s Talk: Exploring Moral and Ethical Issues Surrounding Race, Medicine, Cybersecurity and Free Speech.” For the July 10 program, speaker Scott Klososky—international speaker, author, entrepreneur, and Principal at consulting firm Future Point of View—will discuss who these “digital criminals” (hackers) are, how they attack, and how one can help defend themselves from them.

Scott Klososky spoke at Chautauqua-in-Chagrin™ two summers ago for a program focused on the future of technology.

Additionally, the Chagrin Falls Library will host its Young Explorers Program at the Chagrin Falls Library at 100 E. Orange St., Chagrin Falls, Ohio. The July 10 program focuses on “Art,” one of the four pillars of the Chautauqua Movement and is open to children in Kindergarten through 5th grade. Participants will explore masks from cultures throughout the world, as far away as Africa, Indonesia and Japan, courtesy of the Cleveland Museum of Art. The Young Explorers Program will begin at 11:00 AM and is free of charge, but registration is required by calling (440) 247-3556.

**Cybersecurity
Tuesday, July 10**

6:30 PM | Chagrin Falls United Methodist Church – 20 S. Franklin St.

The reality is that if you use a computer, your identity and personal information is at risk. Who are these digital criminals? How do they attack? How can one defend themselves from hackers and digital criminals?

Speaker:

Scott Klososky—International Speaker and Author; Former CEO of three successful startup tech companies and Principal at consulting firm Future Point of View; Author of “Did God Create the Internet?”

ABOUT SCOTT KLOSOSKY

Throughout his career, Scott Klososky has been on the forefront of technology and industry. He is renowned globally for his ability to recognize and capitalize on future trends regarding the ways technology is shaping business and our world.

He is currently invested in guiding leaders through the digital transformation. Scott is the founder and principle of technology consulting firm Future Point of View. He regularly advises C-suite executives inside some of the nation’s most recognizable organizations.

Through Future Point of View, Scott works with organizations of different sizes and industries to assess and improve their digital maturity. Scott has developed the innovative concept of HUMALOGY®, the blending of technology and humanity. Humalogy provides a framework on how leaders can best balance technology and human effort to make processes more efficient and effective.

As a speaker, Scott entertains while enlightening audiences around the world on a range of topics including cybersecurity, leadership, data intelligence, trendspotting, digital marketing, and injecting the right amount of technology into every process. He has developed a reputation for delivering presentations that leave attendees talking and thinking long after they have ended.

For much of his career, Scott has been devoted to helping organizations protect their digital assets and pilot what is becoming an increasingly critical area for the health and survival of all: cybersecurity. He is a co-owner of TriCorps Cybersecurity which provides a host of cybersecurity services including audits and assessments, vulnerability testing, forensics, remediation, and team member training.

He has spoken in front of the FBI's Cyber Warfare Conference and the Federal Government for Financial Accountants. Scott is driven to ensure that all organizations can effectively protect themselves from cyberattack.

The author of four books, Scott's most recent title *Did God Create the Internet? The Impact of Technology on Humanity* provides an in depth look at how technology is changing humanity and what this evolutionary impact will mean for our future.
